### PERSONAL PROFILE

Experienced Web Developer, with ~2 years of experience. My favorite part of programming is the problem-solving aspect. I love the feeling of finally figuring out a solution to a problem.

### WORK EXPERIENCE

#### Web Developer

My Content Pal | 2023 - 2024

was never to become a full-time web developer, but I was offered a position as a front-end developer. I worked on a variety of projects, gaining experience with HTML, CSS, Javascript, and PHP. I also learned how to work with APIs and integrate them into web applications. This experience solidified my decision to pursue web development as a career.

#### Web Developer and Designer

Profitable Pineapple Ads | 2023 - 2024

I had the opportunity to work as a web designer for a PPC Agency. I was responsible for designing and developing websites and funnels for my boss. This experience gave me a solid foundation in web design and development.

### EDUCATION HISTORY

Cebu Institute of Technology

Bachelor of Computer Science, 2021

Curriculum for a bachelor's in computer science covers programming, algorithms, data structures, databases, computer networks, and software engineering.
